

BLUE RIDGE COCKAPOOS GUARANTEE

State of South Carolina Rules and Regulations govern all warranties and guarantees.

Puppies sold by Blue Ridge Cockapoos (Seller) are honestly represented and evaluated as accurately as possible by Seller. Blue Ridge Cockapoos is selling this puppy as a pet and in no way guarantees breeding capabilities. We recommend that your puppy be spayed or neutered by a veterinarian of your choice at the appropriate age. Seller cannot guarantee adult size, color, or temperament of the puppy.

The above-described puppy is guaranteed to be in good health at the time of the sale. In order to verify the good health of the puppy, Buyer must take the puppy to a licensed veterinarian within 72 hours of receipt of puppy. However, if you feel that your puppy is sick, take the puppy to the vet immediately. It is very important that the puppy eats and drinks as soon as possible after you receive it. If your puppy is too stressed to eat for a period of more than 12 hours, take him or her to a veterinarian IMMEDIATELY. Seller will not replace a puppy that dies because Buyer waited too long to get medical help for the puppy.

If an examination by a licensed veterinarian reveals that the puppy is medically unsound so as to warrant returning puppy to Seller, Buyer must notify Seller within 72 hours of the receipt of the puppy. The veterinarian must furnish a hand-written report describing the problem, and the puppy must be returned immediately if Buyer is to receive a replacement or a refund of monies paid for said puppy (monetary refund shall not exceed original price paid for said puppy). Seller will not replace your puppy for common puppy problems, such as fleas, ticks, lice, coccidia, giardia, intestinal parasites, ear mites, or other such parasites, or other stress-induced problems such as hypoglycemia and kennel cough. Seller will not pay any vet bills incurred by Buyer for any reason.

Said puppy is guaranteed to be free of life-threatening congenital defects until he or she is one year of age. Should the puppy be diagnosed with a congenital disorder within that time period, Seller will replace the puppy with another puppy of the same sex and similar coloring as soon as one becomes available or refund the price paid for said puppy. However, in order for Seller to be required to replace the puppy or refund monies paid for said puppy, two unassociated veterinarians must examine the puppy and determine that the quality of life will be seriously impacted and recommend euthanasia, or require continuous medical treatment throughout the puppy's life. Upon Buyer showing hand-written proof of above-described congenital disorder, Seller will make restitution as described above (replace puppy or refund monies paid for puppy). Please call Seller for advice. In the unlikely event of the death of the puppy, laboratory confirmation of cause of death will be required. Seller shall not assume liability for veterinarian expenses. Buyer understands that all guarantees expire one year from the date of purchase.

Buyer understands that the following slight genetic defects are not considered serious or life threatening and therefore is not covered: umbilical hernia, un-descended testicle, kidney/bladder infection, under-bite or over-bite, Grade 1 luxating patella. Buyer understands that replacement option is only valid when health problems are attributed to a heredity problem and not due to accident or contagious and/or other illness.

If a refund of money paid for puppy or replacement of like puppy when one becomes available, is deemed necessary, in no case shall monetary refund exceed original price paid for said puppy. Seller will not reimburse shipping/delivery charges.

At time of delivery, puppy will be current on shots and worming and, to the best of Seller's knowledge, the puppy will be in excellent health. Seller recommends that you complete the worming and vaccinations needed to ensure that your puppy continues to enjoy good health.
